

Much of the information for this chart came to me originally from Andy MADDOCKS and Robert W. JONES.

John HANCY's parents were John HANCY born in Wells, Norfolk, and his wife Harriet born in Bungay. Some records for this family have the spelling HANCEY.

Harriet appears in the 1871 census as daughter (of John, Head) age 4. I cannot find her in GRO births under HANCY, LEACH or LEECH, and have not resolved her true parentage.

It may be that disaster struck the HANCY family in the 1870s. There is a possible death for the mother in 1880, June qtr, Yarmouth reg-district, Harriett HANCY, age 35.

I cannot locate any of the family for certain in the 1881 census, but there is a John HANCY, age 11, born Bungay, in Wangford Union Workhouse, Shipmeadow, in 1881. Also present are Robert HANCY, age 7, and Eliza HANCY, age 5, both born in Bungay, who could possibly be siblings.

It is possible the father survived because in the 1901 census there is a John HANCY, age 55, born Bungay, married to a woman called Sophia, age 40, born in Great Yarmouth. She is identified as Sophia BUSHELL who married John HANCY in 1898 March qtr Yarmouth reg-district (GRO).

The younger John HANCY may also have been alive in 1901. He may be identified with a road labourer of this name, age 28, born Bungay, who was boarding with a family called ADAMSON in Harrogate, Yorkshire. If there are descendants of this HANCY family, I should be interested to hear from you.

Unfortunately, I have been unable to find out anything about what happened to the third ALEXANDER sister, Maria. Please contact me if you know anything.

For the descendants of Mary ALEXANDER and Philip KNIGHTS see KNIGHTS chart (a) on my Genealogy menu.

This shows my own line of descent from Mary ALEXANDER

Jonathan's parents were William and Hannah MOWSER
