Dear Pat,

21st March 2009

Thank you to all those who helped make my visit to the Edgeworth and District Horticultural Society and the Barlow Institute such an enjoyable experience. It was a warm welcome you gave me and I was so thrilled to meet everyone including several friends from the past. I enjoyed planting the tree too and took another look at it the next day with my old pal Cliff Heyes. I do hope that it is allowed to thrive and show its rich colours in autumn.

May the Institute and your Society continue going from strength to strength.

With best wishes,

Roy
