## NOTICE TO MARINERS FIRTH OF FORTH

### Crombie Operations Firth of Forth – May 2007

#### **Reference Chart: 737**

Due to activities at Crombie, all vessels are required to keep a minimum of 275 metres (1.5 cables) from any vessel berthed at the pier during the timings specified below. FTNS will warn all shipping of any restriction and a patrol launch will advise pleasure craft.

Crombie can suspend operations, with at least one hour's notice, if a deep draft vessel is required to enter the exclusion zone.

When navigating in the vicinity of the area detailed above, all mariners are requested to proceed with caution, reduce speed to minimise wash and observe strict compliance with the exclusion zone.
