

HORSTED KEYNES COMMUNITY GARDENS

Many parishioners have expressed an interest in more places being available for them to grow their own fruit, vegetables and flowers. As a first step, the Parish Council is approaching Mid Sussex District Council about the availability of a suitable piece of land.

A Community Garden could include: -

1. An orchard with native English fruit trees individually owned
2. A wildlife area
3. A children's play area
4. A wildlife pond
5. A community composting area
6. Individual garden plots
7. A school plot / gardening plot

If any of the above interests you, please, let me know on 790693 or jon.martin393@btinternet.com .

Many Thanks
