

GBTEN Chapter of 10/10 International

General Information Sheet Issue # 8 Dated 13-Apr-01:File Ref: Introdocus.017
Updated where needed on 09/09/02...

Dear Friend,

May I take the opportunity of welcoming your enquiry for Information on the GBTEN Chapter of 10/10 International.

To join the Chapter we ask that you submit proof of paid up membership in 10/10 International and, at least 3,000 GBTEN upgrade points collected on the Ten metre band using any mode your licence permits you to operate on.

We hold our nets, propagation permitting, with the **Roman Invasion** and **Laurel Mancunium Chapters**. Our net times are 14.00 Zulu on Sundays on 28.860 Mhz during our Winter and Summer. We also hold a smaller net on a Thursday at the same time but on a frequency of 28.870 +/- QRM.

We offer a certificate to accompany our Chapter. It is a two colour design printed onto a Parchment-looking heavy paper. The design incorporates sections to append the first eight of our upgrade seals. You may, if you so desire, elect to join the Chapter on a number only basis.

Most sections of our Programme have worksheets available for your use for those without computer logging systems. Those using commercially available Programmes may use the printouts these Programmes produce for submitting initial applications and most upgrades.

Full details of our Programmes are available on Information sheets either via E-Mail or regular mail from the CM at the address printed below. We are currently working on a Web site for even easier collection of info.

The cost of joining our Chapter, together with the certificate and the 8 seals is \$4. A number only is available and the cost is \$2.00. This is for return postage only as our joining pack contains several sheets of info. The above costs are for DX entries only. For members within Europe the cost is \$2.00 to cover a lower postage rate.

The Chapter also accepts applications and upgrades via E-mail on a number only basis for which there is no charge. I normally send out the initial information via an E-mail containing a zipped file of Programme and worksheets etc. If you cannot handle a zipped up file then I can send them as separate file attachments.. If attachments are not required then enclosure within the message body is also possible.

Thank you again for your enquiry. We look forward to the pleasure of your company in the GBTEN Chapter of 10/10 International.

If you seek further information please do not hesitate to contact me. All the very best. 73 de Dave CM.

Please send your application to:
