Get Your Own Traditional Music Library

The ultimate resource for traditional and folk musicians and enthusiasts

This music software comes on a CD ROM which you plug into your Windows computer.

With it you can:

Print out sheet music with chords marked, together with any lyrics for the tune.

PLAY the music through your PC's speaker at selectable speed [fast/slow/or medium/normal].

The melody plays on the left channel and the simple chord/bass line backing on the right.

A collection of more than 1600 tunes and songs with sheet music including;

| | | |
|---|--|----------------|
| * | Bluegrass | 250 plus items |
| * | American Old Time | 300 plus items |
| * | 60's folk revival favourites | 70 plus items |
| * | Irish folk/traditional | 200 plus items |
| * | Scottish folk and traditional | 140 plus items |
| * | Christmas music/carols | 80 plus items |
| * | Bawdy songs | 120 plus items |
| * | Stephen Foster songs | 70 plus items |
| * | Well known/traditional/folk tunes | 80 plus items |
| * | Well known/popular pub session tunes | 200 items plus |
| * | World folk/traditional inc. Cajun, Tex-Mex, South American, Welsh, Playford etc. | 80 plus items |

Also on the CD are included extra items:

| | | |
|---|---------------------------------------|-----------------|
| * | Carter Family Song Book [lyrics only] | 227 songs |
| * | Bluegrass Song Book [lyrics only] | 1000 plus songs |

A very extensive music encyclopaedia which covers all aspects of music theory as well as

Providing lots of detailed information about traditional and folk music history and musicians.

A huge collection of links to the best traditional and folk music resources on the internet.

With this fantastic collection you may never need to buy another tune book or music book.

Computer technology has made it possible to include a whole library of music books on just one CD ROM and at the incredibly low price of just **£14.00** [plus £1.00 p&p].

To use this product you will need a Windows PC with a CD ROM drive and running Windows 95 or better. To play the music it will also need to have a midi compatible sound card. It is very easy to use – even for a complete computer and music novice – just put in your CD drive and click on the 'start' button.

The CD ROM library is produced by Rod Smith 'phone 01892 667090

or visit his website www.traditionalmusic.co.uk

JUST THE TUNE

The 'Just The Tune Series' by Rick Townend contains some of the more familiar and popular traditional tunes in American and Old Time music. Each tune is repeated several times, most tracks are approximately 4 minutes in length, with the first repeat emphasising the tune in a simple form and as the track progresses, more decoration and instrument leads are added to demonstrate how the tune may be played on different instruments. The tunes are all recorded at a moderate speed to make listening and learning easier. The instruments used are banjo[old-time & bluegrass styles], guitar[lead and rhythm], fiddle, mandolin, autoharp, dobro, dulcimer and bass. Not all instruments are used on all tracks.

TABLATURES

The 'Just The Tune' series are supplied on mixed media CDs and can be played on a normal hi-fi or personal stereo AND Windows based P.C. When played on a P.C. the standard music notation scores and instrument tablature can be viewed on the screen or printed as required. Tab. is provided for banjo[5 string], dobro, dulcimer, guitar[open], guitar[capo], mandolin and tenor banjo. The tab. shows the string and fret for each melody note. The printed tablatures from the 'Just The Tune' CDs are 'royalty free' for non-commercial use but the CD or its files are not and so may not be copied.
