JUST THE TUNE

The '**Just The Tune Series**' by Rick Townend contains some of the more familiar and popular traditional tunes in American and Old Time music. Each tune is repeated several times, most tracks are approximately 4 minutes in length, with the first repeat emphasising the tune in a simple form and as the track progresses, more decoration and instrument leads are added to demonstrate how the tune may be played on different instruments.

The tunes are all recorded at a moderate speed to make listening and learning easier. The instruments used are banjo [old-time & bluegrass styles], guitar [lead and rhythm], fiddle, mandolin, autoharp, dobro, dulcimer and bass. Not all instruments are used on all tracks.

TABLATURES

The 'Just The Tune' series are supplied on mixed media CDs and can be played on a normal hi-fi or personal stereo AND Windows based P.C. When played on a P.C. the standard music notation scores and instrument tablature can be viewed on the screen or printed as required. Tab. is provided for banjo[5 string], dobro, dulcimer, guitar[open], guitar[capo], mandolin and tenor banjo. The tab. shows the string and fret for each melody note.

The printed tablatures from the 'Just The Tune' CDs are 'royalty free' for non-commercial use but the CD or its files are not and so may not be copied.
